SUCTION KITS & TROLLEYS

The suction kits and trolleys enable to group on a mobile holder (either to carry or to push) the various products making up a suction set (suction devices, collection jars, catheter holders…).

SUCTION KITS:

Chrome-plated portable holder to put on the floor or to hang onto a rail thanks to a TM universal rail clamp in polycarbonate.
Dimensions: Height 370 mm x Width 320 mm x Depth 140 mm.
Ref. 10326: Portable suction kit only (without accessory).

Standard configuration:

- **One RVTM3** vacuum regulator 0-1000 mbar,
- **One 2 m long connection** to the central vacuum source with remote probe,
- **One complete 2 L collection jar** in polysulfone with silicone ring lid,
- **One 2 L collection jar** in polysulfone (without lid),
- **One 3 m long silicone hose,** 7x13 mm, with one single-use vacuum stop.

CH01-E

Ref. 19428: RVTM3 0-1000 mbar with **AFNOR** probe.
Ref. 19429: RVTM3 0-1000 mbar with **BS** probe.
Ref. 19430: RVTM3 0-1000 mbar with **DIN** probe.

PORTABLE SUCTION TROLLEYS:

Rilsan-coated steel portable holder with 2 feet (at the front) and 2 wheels (at the back).
Dimensions: Height 750 mm x Width 400 mm x Depth 270 mm.
Ref. 11943: Portable suction trolley only (without accessory).

Standard configurations:

- **One RVTM3** vacuum regulator 0-1000 mbar,
- **One 2 m long connection** to the central vacuum source with remote probe,
- **One complete 2 L collection jar** in polysulfone with silicone ring lid,
- **One 2 L collection jar** in polysulfone (without lid),
- **One 3 m long silicone hose,** 7x13 mm, with one single-use vacuum stop.

CH02-E

Ref. 19471: RVTM3 0-1000 mbar with **AFNOR** probe.
Ref. 19478: RVTM3 0-1000 mbar with **BS** probe.
Ref. 19479: RVTM3 0-1000 mbar with **DIN** probe.

- **One centralised vacuum inlet** with 2 vacuum supplies,
- **One 2 m long connection** to the central vacuum source with remote probe,
- **Two complete 4 L collection jars** in polysulfone with pressure-fit lids and metal baskets,
- **Two 3 m long silicone hoses,** 8x14 mm, with two single-use vacuum stops.

CH03-E

Ref. 10242: with **AFNOR** probe.

RVTM3 also available in grey and/or with mmHg gauge on request.

Other configurations available upon request.
Please contact us.

MOBILE SUCTION TROLLEYS:

Chrome-plated mobile holder with a square-shaped column mounted on a 5 branch basis with 5 rotating wheels (including 2 wheels with brakes).
Dimensions: Height 1140 mm x Width 500 mm x Depth 500 mm.
Ref. 10215: Mobile suction trolley only (without accessory).

Standard configurations:

Single version

- **One RVTM3** vacuum regulator 0-1000 mbar,
- **One 3 m long connection** to the central vacuum source with remote probe,
- **One complete 2 L collection jar** in polysulfone with silicone ring lid,
- **One 2 L collection jar** in polysulfone (without lid),
- **One 3 m long silicone hose,** 7x13 mm, with one single-use vacuum stop,
- **One twin catheter holder,** 40 cm long.

CH04-E

Ref. 19434 Single version with **AFNOR** probe.

Twin version

- **One twin RVTM3** vacuum regulator 1000-1000 mbar,
- **One 3 m long connection** to the central vacuum source with remote probe,
- **Two complete 2 L collection jars** in polysulfone with silicone ring lids,
- **Two 3 m long silicone hoses,** 7x13 mm, with two single-use vacuum stops,
- **One twin catheter holder,** 40 cm long.

Ref. 19434	RVTM3 0-1000 mbar with **AFNOR** probe
Ref. 19443	RVTM3 0-600 mbar with **AFNOR** probe
Ref. 19455	RVTM3 0-1000 mbar with **BS** probe
Ref. 19446	**Twin** RVTM3 1000-1000 mbar with **AFNOR** probe
Ref. 19453	**Twin** RVTM3 600-600 mbar with **AFNOR** probe
Ref. 19449	**Twin** RVTM3 1000-600 mbar with **AFNOR** probe
Ref. 19457	**Twin** RVTM3 1000-1000 mbar with **BS** probe
Ref. 19462	**Twin** RVTM3 1000-1000 mbar with **DIN** probe
Ref. 11852	**Switch:** Accessory making it possible to switch from one collection jar to the other without stopping the suction process. To be used on a mobile suction trolley equipped with one RVTM3 vacuum regulator and two complete collection jars with lids.

- **One centralised vacuum inlet** with 2 vacuum supplies,
- **One 3 m long connection** to the central vacuum source with remote probe,
- **Two complete 4 L collection jars** in polysulfone with pressure-fit lids and metal baskets,
- **Two 3 m long silicone hoses,** 8x14 mm, with two single-use vacuum stops,
- **One twin catheter holder**, 40 cm long.

CH05-E

Ref. 10229 with **AFNOR** probe.
Ref. 17115 with **DIN** probe.

CH06-E

It is possible to adapt various lengths of medical rail on our mobile suction trolley to fix different storage baskets (for catheters, gloves...).
Please contact us.

RVTM3 also available in grey and/or with mmHg gauge on request.

Other configurations available upon request. Please contact us.
