

SPECIFICATION & DATA SHEET

SPECTRON MANIFOLD RANGE

The MIPS range of Spectron manifolds are designed for economy, reliability and durability, whilst offering the following features as standard:

- Fully complies with BCGA Codes of Practice
- Robust wall-mounted framework (floor mounted option available)
- Pre-set regulators and pressure sensor(s)
- Highly visible gauges for cylinder contents and pipeline pressure
- High pressure cylinder connection hoses to BS EN ISO 14113
- Cylinder support chains and racks included
- Includes safety relief valve and isolation valve
- All manifolds are tested and certified before despatch
- Each outlet is covered by a full warranty

Optional external weatherproof enclosures.

The right is reserved to change the specification of the items described herein at any time.
